

CAPA Hangar Talk - Piston Engine Management

The Craig Airport Pilots Association presents David Cristol, and his organized Hangar Talk with monthly topics that focus on education and fun exploring new endeavors.

Piston Engine Management - Those 3 Knobs
We will discuss piston engine management.

What do those knobs do?
What is normal combustion?
What is abnormal - pre-ignition and detonation?
Should I be Rich of Peak or Lean of Peak?
What is the Red Box?
Procedures to run consistently and smoothly

From St. John's Bluff Road, enter the Craig Airport main entrance, proceed all the way to the end, where the control tower is located.

A message from the National FAASTeam Manager
