

Monthly Safety Meeting Gatorland Aviators

This discussion is aimed at any installation of a gear driven alternator that shows initially as an electrical problem that has the potential of destroying the engine. Further discussion is landing as soon as possible verses as soon as practical.

We will discuss techniques to improve our currency and proficiency in 2025 as well as how to challenge ourselves to become even better pilots.

Seminar is located downtown Gainesville, Florida, not at airport.
Free Parking behind building. Meeting on second floor conference room. Entrance to meeting is behind building, through outside stairway.
