

Monthly Safety Meeting

Why are human conditions, such as fatigue, complacency, and stress, so important in aviation? These conditions, along with many others, are called human factors. Human factors directly cause or contribute to many aviation accidents. So what are human factors and why do they matter?

This seminar will cover the PAVE checklist, a way to understand and mitigate the risks

The southern most hangar on the airport property. Go south on 60th Ave until you see the signs for PRP Aviation and follow them.

A message from the National FAASTeam Manager
