

Monthly Safety Meeting

What is a Stabilized Approach and why do I care? How can I determine if my approach IS stable and if I should continue with a landing attempt or go around. We'll discuss how to objectively evaluate your approaches in real time and during your post flight review.

The southern most hangar on the airport property. Go south on 60th Ave until you see the signs for PRP Aviation and follow them.

A message from the National FAASTeam Manager
