

Introduction to Human Factors and Safety Culture

- Human Factors Education and Training are beneficial in improving pilot performance and efficiency.
- A robust, positive Safety Culture is key to safe aircraft operations.
- Safety Risk Management is a recommended practice whether it be a complete organizational Safety Management System or an individual process.
- **WINGS** Proficiency Training incorporates Human Factors knowledge of:
 - Safety Culture, Human Performance, Communication, Teamwork, Situational Awareness, Safety Risk Management, Human Information Processing and Technology and Automation.
