

CAPA Safety Chat - Preflight Planning and Personal Minimums

The Craig Airport Pilots Association presents David Cristol who will discuss pre-flight planning for both VFR and IFR. What do the regulations say and is that really enough? He will then connect the planning phase to setting personal minimums and how this works when things change. Personal minimums aren't just for IFR pilots and he will discuss both VFR and IFR strategies.

The event is expected to last about 90 minutes, and questions/answers will certainly be entertained.

Please bring your own chair, and plan for weather, as this meeting takes place in a hangar.

From St. John's Bluff Road, enter the Craig Airport main entrance, and take the first left, toward JAX Executive Jet Center. Hangars are on the right. Park between buildings 2 and 3 - avoiding the grass.

A message from the National FAASTeam Manager
