

## KSFB FAASTeam Presents Summer Flying and Weather Resources

Summer flying presents unique challenges, such as increased density altitude and thunderstorms. A practical approach, using all available information, can help you avoid or mitigate these hazards. We will discuss these challenges in detail, along with weather resources available both on the ground and in the air. References for this topic, including selected FAASafety.gov courses, are listed below. We hope to see you there.

**The Vigilante Room at Sanford Airport; it's in the Rental Car Building near the Commercial Airline Terminal. If you fly in to KSFB for this WINGS event, you can park at Million Air FBO and get a courtesy ride over to the seminar's location in the Vigilante Room. If you drive, you can park in short term parking and parking validation is available at the conclusion of the meeting.**

### A message from the National FAASTeam Manager

Earn your WINGS to get a chance to win a prize. Go to <https://www.wingsindustry.com/WINGS-Sweepstakes> for more info. Join us on Facebook: <https://www.facebook.com/groups/GASafety/>
