

Florida Aviation Network Presents Plane Time 33 - Thunderstorm Basics with George Bartuska!

Event Details

The Florida Aviation Network (FAN) is broadcasting this popular multi-part aviation safety talk show that is recorded "Live". All aspects of aviation could be discussed; however, "Plane Time" frequently emphasizes often-overlooked facets of the aviation industry. Make time to view and enjoy "Plane Time" - It might even save your life. Watch with a friend! This final segment of Plane Time is called "Sky Insights" and in this session, Dr George Bartuska will talk about Thunderstorms. With summer seasonal weather patterns approaching, pilots and members of the aviation community need to understand thunderstorms and know what to do if they encounter one.

To simply watch the event, there is no registration required – Just go the Florida Aviation Network site <https://www.floridaaviationnetwork.com/> and click
