

MOSAIC LSA - ASTM Standards and Means of Compliance

This seminar provides an overview of the four primary ASTM International consensus standards developed by the F37 Committee as Means of Compliance (MOC) for the FAA's Modernization of Special Airworthiness Certification (MOSAIC) rule. The presentation will explain how these standards support the new light-sport category and what MOSAIC may mean for pilots and aircraft owners.

The EAA Meeting Room is within the AOA of Vero Beach Regional Airport. Escorted access is required if not badged for this airport. The access gate will be manned to allow escorted access. A backup number is 952-826-9707 to obtain escorted access.
