

KSFB Pilot-Controller-Airport Forum

Orlando Approach is very excited to extend our pilot outreach efforts to the next level and continue building stronger relationships with the local aviation community.

One of our primary goal is to educate pilots on our side of the frequency while also learning more about the pilot perspective and the challenges they face in today's complex NAS environment. We believe open communication and collaboration between pilots and controllers can go a long way toward improving both safety and efficiency in the Central Florida airspace.

The Vigilante Room at Sanford Airport is in the Rental Car Building near the Commercial Airline Terminal. If you fly in to KSFB for this WINGS event, then you can park at Million Air FBO and get a courtesy ride over to the seminar's location in the Vigilante Room. If you drive, then you can park in short term parking and parking validation is available at the conclusion of the meeting.

Event Details

Mon, Oct 19, 2026 at 19:00 EDT
