FAASTeam presents:

Surviving Aircraft Systems Emergencies

Aircraft systems failures and malfunctions can occur unexpectedly and may present significant challenges to pilots. Recognizing abnormal indications, understanding potential system failures, and knowing how to respond appropriately are essential to maintaining aircraft control and managing in-flight emergencies.

This seminar will address eight areas involving potential in-flight emergencies:

- Lost communications
- Electrical system failures
- Pitot-static system failures
- Vacuum system failures
- Flight control system failures
- Landing gear system failures
- Brake and tire failures
- Managing distractions

Event Details

Sat, Nov 21, 2026 at 09:00 EST

Treasure Coast International Airport -EAA Chapter 908

3100 Industrial Ave #3
EAA Chapter House #3

Fort Pierce, FL
