

Flying Into and Out of Non-Towered Airport

Scott Piterson is a FAASTeam member of many years, and a Professional pilot who flies for "American Airlines", a Flight Instructor, and a strong advocate of aviation safety. In this seminar he talks about the fact that flying to non-towered airport needs more than it looks like. He will also talk about - Pattern entries and departures, Unicom and CTAF use, and the flight safety practices, that are necessary to prevent accidents. A wonderful seminar for pilots at all levels.

Directions: Once you arrive at the campus at 7200 Pines Blvd proceed to the Southern Breeze Meeting room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
