

FAASTeam and FSDO SO19 presents:

Do not Sweat It - It is Only A Check Ride

A Check-ride is the final test to all the pilots, to prove that they can fly. In this seminar, you will review the process of the Check-ride, how to ace it, and common reasons for failure. In 2 hours that will end up with questions and answers, we will discuss airworthiness, preflight, loss of control issues, pilot deviations and runway incursion avoidance.

Guest speaker - Mr. Brooks Black.

Pilot since 1967, more than 18,000 flight hours, DPE since 1991. Flight experience in North, Central and South America and Europe.

Mr. Black is one of the well known designers in Florida. From his long time experience, he has seen it all, when it comes to Check-rides. He has also published a book, to help pilots - have successful Check-rides. Now - we are lucky to have him share his wealth of experience and advice to all of us.

Directions: *Proceed to the intersection of NW 25th st. and NW 67th Ave;

*Head east on 25 st. and make the first right hand turn;

*This is the ramp to the roof parking area;

*On the roof, proceed to building 701;
