

FAASTeam, FSDO SO19 presents:

BASICMED 3rd Clas Medical reform

BASICMED is the third-class medical reform effective on May 1, 2017. As a pilot, if you only need a third class medical to fly (private pilot including CFIs), you might wish to consider BasicMed as an option next time you need to renew your medical. Or perhaps even to regain flight privileges. To take advantage of BasicMed, you must have held an FAA medical (1st, 2nd or 3rd Class) in the last ten years. Furthermore, BasicMed applies to "covered aircraft" which represent a very high percentage of general aviation aircraft.

Come and learn more about BASICMED from Dr. John Sciarrino, senior AME, ophthalmologist, pilot and overall aviation enthusiast who will lead the presentation followed by Q&A.

After the presentation, a complimentary BBQ will be offered.

Directions: Located on the south side of Pompano Beach Airpark (KPMP). If you fly in, tell ground control you want to go to "Spot 3". The FBO is Sheltair.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
