

FAASTeam And FSDO 019. presents:

Convective Weather Bootcamp

How many times have you scrubbed a flight because of convective weather along your route of flight? Are you anxious on the way to the airport when you see dark clouds in the sky? If so, this Convective Weather Bootcamp is just what you need.

This Bootcamp will teach you to recognize and avoid hazardous weather using weather avoidance equipment and ATC personnel. You can expect to master the knowledge of convective weather theory and hands-on techniques to overcome the fear that a Convective SIGMET or cumulonimbus cloud presents. Get off the couch and learn to fly safely this Summer.

Directions: If you are on I-95, exit Pembroke Pine Blvd. WEST, then LEFT into Broward College, LEFT in the College, around all the parking lots, till the LAST building, that - would be Number 66. Come in.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
