

## IFR Approach Plates

Increase pilot awareness to recognized and understand the weather in Instrument Meteorological Conditions (IMC). Instrument approach plates are packing an extraordinary amount of information into a very small space. If you understand them it could help you to fly the approach safely.

In this seminar ,we will explain all the options to VFR pilots getting trapped in IMC weather. How to help navigate your landing – with a controllers guidance.

This seminar is a basic introduction for VFR pilots, to IFR conditions.

**Directions:** If you are on I-95, exit Pembroke Pines Blvd. WEST, then left into Broward College, left in the college, around all the parking lots, till the LAST building, that, would be Number 66. Come in.

### **A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
