

Say it again - please

Our daily traffic count, has been over a thousand operations a day. At a smaller airport, with 3 runways or less, it's take a lot of hard, professional work, to deal with it. Often, there is; frequency congestion, over talking, and un trained language.

So, what we need to say, and how we say it - in just few words? to fly safe, and communicate to the control tower, center, traffic and other pilots, is crucial to keep our sky safe.

Our discussion will include communicating with approach controllers, common terms/phraseology used, along with understanding some parts of the Miami and the local airspace.

Directions: If you are on I-95, exit Pembroke Pines Blvd. WEST, then left into Broward College, left in the college, around all the parking lots, till the LAST building, that, would be Number 66. Come in.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

Event Details

Thu, Mar 15, 2018 - 18:00 EST
