

South Florida FAASTeam and South Florida FSDO 19 presents:

# **Miami Tower and TRACON Operations and Procedures**

This event is perfect for pilots at all levels, everyone can play a part in creating a safer sky to fly in.

With over 1,050,000 operations at MIA and FLL airports combined in 2017, our goal is to create a team oriented experience whether you're talking to a controller for flight following, or flying around on your own.

The seminar will include topics such as:

- A look inside Miami TRACON and understanding what a controller sees;
- Traffic flows into and out of the South Florida area,
- How to benefit from the services available,
- Understanding why controllers ask you to do what you do,
- And most importantly, a question and answer session.

Come spend an evening with ATC and bring those questions you always wanted answered.

**Directions:** Follow attached map to Miami Dade College's Eig-Watson School of Aviation

## Event Details

**Thu, Mar 8, 2018 - 19:00 EDT**

**Miami Dade College's Eig-Watson School of Aviation**
