

Boca Raton Pilots Association, FAAS Team & FSDO 19 presents:

Monthly Meeting - Emergencies and Non-emergencies in flight

Emergencies and Non-emergencies in flight
Pain in the cockpit as well as to your passengers.
Let's face it, we rely on healthy pilots. What to make of certain aches and pains and are they an emergency? We will go over symptoms and what to do to keep you flying straight and level. We will discuss what happens when you need to inform your AME of certain conditions and the path back to the cockpit.

About our speakers:

Dr. Joseph R. Tordella, D.O., Senior AME, HIMS, ATP received his Engineering degree at Drexel University. He holds several patents working in Computer, Aerospace and Bio-medical engineering. Dr. Tordella is a retired USAFR pilot and flight surgeon and a former TWA pilot. He was a partner in a joint venture with the mainland Chinese government known as CHINAM MEDCORP. He also has worked with the Federal Air Marshal Service. Presently, he is a physician specializing in Aviation Medicine at Air, Land & Sea, LLC and has testified on behalf of the FAA, air carriers, pilots and is an accepted expert witness by the NTSB. In November, 2018 he received the Wright Brothers "Master Pilot" Award.

Dr. Pinnell is president of Airdocs Aeromedical Support Services, providing a variety of services
