

Drone Setup/Safety/Compliance - A Counter Crash Course

If you currently own a drone, are thinking of getting one, or plan to give/receive one in the near future, *this seminar is designed for you!* This Seminar is for everyone . Great safety information for Pilots of manned aircraft to become familiar with Drones.

In addition to regulatory "spin-up" requirements, we'll discuss Best Practices (BP's) for requesting airspace authorizations, preflight risk assessments, critical UAS safety features, and even remedial actions to diagnose/respond to an in-flight malfunction.

The United Utility Power Services (UUPS) "T&D Survey/Emergency Response Team" will be hosting/presenting this seminar. They've successfully concluded UAS operations in the most challenging environments in the country, with zero safety incidents or coordination failures to date.

Event Details

Wed, Dec 13, 2023 at 18:00 EST

United Utility Power Services

3950 RCA Blvd

Ste 5001

Palm Beach Gardens, FL
