

## Safety Study and the Carrier

“What I learned from Part 121 flying that I now apply to Part 91 flying.”

Part 121 operations are highly structured. We fly higher and faster than the majority of Part 91 flights, so the margin for error is much lower. We are in a constant state of learning, debriefing, and seeking improvement. While each airline is unique and has its own policies, this seminar will provide insight to some 121 procedures and experiences that can be applied to Part 91 flying. This seminar is great for anyone currently flying, interested in flying, and for those seeking their first 121 job. A Q&A session will be available.

If you are on I-95, exit Pembroke Pines Blvd. WEST, then left into Broward College, left in the college, around all the parking lots, till the LAST building, that, would be Number 66. Come in.

### A message from the National FAA Team Manager
