

EAA Chapter 203 Monthly VMC Club Meeting

The EAA VMC Club provides a "hangar flying" experience organized around visual flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

The scenario(s) we will discuss at this meeting is/are: "Electrical Problems" describes an actual flight as follows: Our pilot is making a short VFR flight one summer morning in a Piper PA-24 Comanche, full fuel, Aircraft is VFR/IFR. Pre-flights identified no problems. Engine instruments all indicated normal after start-up. Shortly after takeoff, you lose all electrical power.
