

Palm Beach International Airport Runway Safety Action Team meeting

Palm Beach International (PBI) Airport Runway Safety Action Team (RSAT) Meeting. Runway incursions remain a serious concern nationally. One important component of our ongoing efforts is to improve surface safety at PBI Airport. RSAT meetings at least once each year in conjunction with airport management unite those individuals and organizations who are actively involved in air traffic operations and the movement of aircraft, vehicles, and equipment in the Airport Operations Area (AOA). We look for participation from all major airport interests including tenants, fixed base operators, airport operations, and maintenance personnel. Participants are asked to help develop recommendations and solutions to enhance surface safety. Those recommendations serve as the foundation for a site-specific Runway Safety Action Plan.

Take I95 to exit 69 toward Belvedere Rd. Head West on Belvedere Rd to Palm Beach Internatioanl Airport. TTurn left onto 8th St, then turn left towards the PBI Tower Buidling.
