

US Air Force Flying Around Us

Navigating military airspace is a critical skill for general aviation pilots. Join us for an essential seminar featuring the controllers who manage F-16 fighter jet operations in South Florida. We will cover Homestead Air Reserve Base (ARB) flight operations, aircraft types, and what to expect when flying southbound to the Florida Keys or navigating northbound Temporary Flight Restrictions (TFRs). Attendees will learn vital mid-air collision avoidance strategies and gain a comprehensive understanding of military maneuvers in local airspace. Equip yourself with the knowledge required to fly safely around Homestead ARB's delegated airspace

If you are on I-95, exit Pembroke Pines Blvd. Head West, then left into Broward College, go around the parking lots until the last building. That building would be Number 66.

A message from the National FAASTeam Manager
