

Learning to Fly the Light Sport Aircraft....Really

This seminar helps pilots understand the basic skills needed to successfully fly the LSA Safely. We will look at the Low Inertia issues and discover thru accident reports what the problems are.

Directions: Please consult Map Link below. 3rd Floor - Science Works Room

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
