

The Fatigued Pilot

New rest rules prescribed by FAR 117 are affective January 4th, 2014. Although this rule primarily impacts airline pilots there are things we can learn as general aviation pilots. This presentation is based on the required training provided by the airlines and is adapted for use by general aviation pilots. By attending this course you will learn how to recognize and manage fatigue.

Directions: From I-275 N or S take exit 31 to merge onto FL-688, W Ulmerton Rd. Continue on Ulmerton, past Roosevelt Blvd. to Hwy 19. School is on the right.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
