

FAASTeam presents:

# Transition Training (Why? When? How?)

In this one to one and half hour program we will hold a guided group discussion of "Transition Training" and the importance of it for the Safety of Flight.

During the Seminar, we will discuss: Scenarios that are related to the lack of Transition Training; When is Transition Training required; What aircraft require Transition Training and How do we ensure that the Transition Training we receive is adequate and proper for the aircraft to be flown?

The FAAS Team Seminars at KPCM are held in conjunction with EAA Chapter 1178 VMC and IMC Club meetings. This provides organized "Hangar Flying" focused on building a safety consciousness among pilots. Since these seminars are part of the FAA Safety Program, these meetings provide informative presentations along with WINGS credit.

Pilots of all experience levels are welcome, as are non-pilots that are interested in aviation and aviation safety. Membership in an EAA Chapter, or an EAA VMC or IMC Club is not required to participate, but is highly recommended.

For more information and to be part of the event, visit [FAASAFETY.GOV](http://FAASAFETY.GOV) and register online. Due to the limited number of seats, register early.

## Event Details

**Sat, Jan 19, 2019 - 11:00 EST**  
**Plant City Airport, Plant City,**  
**Florida**

4007 Airport Road  
Plant City, FL 33563
