

EAA 175 VMC Club Session

The meeting of EAA chapter 175 on August 19th will feature a VMC club session. This is a long-standing program run by EAA, which uses scenarios and case studies as the basis for open discussion about aviation and safe and proficient piloting (the scenarios are chosen so that there's never just one possible answer). It's also a good excuse to swap flying stories with each other!

The August 19th session will focus on accident preparedness and survival. We all receive emergency training when it comes to engine failure, fire and other events, but what additional details do we need to know to survive an emergency landing in trees, water or other inhospitable terrain and to survive for hours longer until help arrives?

Bring your iPad with Foreflight (or other favorite resource) and your pilot brain along to the session and let's see how
