

Puerto Rico Pilot/Controller Forum

All pilots, regardless of experience level, are welcome to attend this forum. Representatives from the SJU Combined En-Route Radar Approach Control (CERAP), the San Juan (SJU) Tower and Isla Grande (SIG) Tower will join FAASTeam volunteers in addressing numerous local air traffic areas of interest. Some of these include:

1. Changes to SJU/SIG airspaces (i.e., expected to officially occur during the month of July 2024);
2. The Dorado Practice Area;
3. VFR Transitions through the SJU area; and
4. Airspace incursions throughout Puerto Rico.

Participants are encouraged to bring questions and/or concerns to the forum. Space is limited, we encourage those interested in attending to register in advance.
