brian.t.capone@faa.gov

Before Hurricane Katrina, all was well at Lakefront airport. Happy controllers keeping aircraft separated making happy pilots. Then came the winds and water and blew all the happiness away. It is time now to refocus on proper procedures for non-towered operations in order to provide necessary separation for safety. We don't need another catastrophe, Katrina was enough!

Discount Fuel for Participants Refreshments Served

Directions: Million Air FBO Lobby located west of the terminal building.

Message from the National Safety Program Manager:
