

What to Expect from Your Mechanic

This seminar covers who is responsible for aircraft airworthiness, what you should expect your mechanic to do and to document during an annual (or condition) inspection and during unscheduled repairs or maintenance. There will be examples of questions that you should ask your mechanic both before and after maintenance is performed. We will also discuss what other documents you should keep in your aircraft's records.

Directions: Go to the AeroWestern hangar which is the large brown hangar on West side of the north ramp. For fly-in arrivals and parking at the Land of Enchantment Fly In, see <http://eaa179.org/land-of-enchantment-fly-in/>

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov/

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
