

FOR CREDIT ONLY - Albuquerque Soaring Club

Connie Buenafe will lead the group through the procedures necessary to maintain safe launch and recovery procedures. The presentation will start with checking the weather on the day before your duty on the flight line with a check of the weather forecast, followed by the opening procedure and the launch operations, and ending with the closing procedures. Bear in mind that safety is first, so pay attention to changes in wind and weather conditions and be prepared to suspend or cease operations.

Directions: Albuquerque Soaring Club Clubhouse
