

## Aircraft Loss of Control

This quarterly safety seminar will begin with Roger Taylor discussing the ramp area at RSN, traffic pattern conflicts at RSN, and loss of control in the Cessna 172. Larry Wells will talk about his involvement on a national committee dealing the "loss of Control" epidemic we are now seeing in the aviation world, and Gary Odom will cover two recent "Loss of Control" GA accidents.

**Directions:** When driving north or south on Highway 167 turn west on California Avenue. California is on the south side of the city of Ruston. Proceed west for approximately 5-6 blocks to Bond Street. Davison Hall is on the NW corner of Bond and California. Park in any white or blue marked parking space around the building.

When driving east or west on Interstate 20, turn south at Exit 84 and proceed on Tech Drive. Go through three lights, then take your next left on Hergot Street. Davison Hall is the second building on the right. Park in any white or blue marked parking space near the building.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
