

ADS-B What does it mean to you?

NextGen is a transformational approach to updating the National Airspace System (NAS). This is not the first time major changes have occurred to Air Traffic Control. The advent of radar vastly changed the way aircraft are separated. GPS and satellite communications technology lead to another jump in increasing capacity and introducing performance based navigation. We will look at how things will change, what equipment is required and what you can do to make the transition for you smooth and safe.

Directions: East Baton Rouge Parish EMS Headquarters Classroom
3801 Harding Blvd, Baton Rouge. LA 70807
Walking distance from KBTR South Ramp
Nearest FBOs: Signature Flight Service and BTR Jet Center

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
