

Restricted Area R-4403 Operations

Come and join us as we discuss the newly installed restricted area R-4403 that is just to the south of Picayune, MS and learn about the FAASTeam. This will be a live presentation and discussion including speakers from the John C. Stennis Space Center and members of the FAASTeam. Refreshments will be provided during the event.

Directions: The meeting will be held at 6:30PM CDT at the Slidell Municipal Airport FBO in the Lobby. From I-12, take the exit for Airport Rd and head north approximately 2.5 miles into the main entrance to the airport. Follow Airport Road until you see a parking lot to your left (West) and a drive-way to your right (East). You can park in either the lot on the West side of Airport Road, or in any available, properly marked spaces along the drive-way to the East. Building #12 is located at the end of the drive-way to and on your right. Please see attached map PDF.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
