

FAASTeam presents:

Piston Engine Management - beyond the basics

While earning our initial license (e.g., PPL), most of us trained in simple aircraft having modest-sized, carbureted engines with only a couple of engine gauges. As a result, our training in engine management was often minimal. This seminar moves beyond the "basics", covering all phases of flight in both carbureted & injected engines either normally aspirated or turbocharged. This is a 3 hour presentation with a minimum of one break provided approximately 1 1/2 hours into the program.

Select #: SW0393185

Representative Emmet Bartholomew

Directions: The meeting will be held from 6:00 p.m. to 9:00 p.m. at the New Orleans Lakefront Airport Terminal Building in Suite 234, the large upstairs conference room.

Proceed to Stars and Stripes Boulevard from either Leon C. Simon Drive or Downman Road. Proceed down Stars and Stripes Boulevard and head East towards Lakefront Airport. Follow the signs to the airport, which will guide you to a left-only turn lane and stop sign. Turn left onto the airport terminal drive. Free airport parking is available directly in front of the Airport Terminal Building and to your left and right. Enter the Airport Terminal Building from the main front doors at the top of the stairs and ramp. Proceed through the lobby and to your right to the main stair case and elevators. Suite 234, the large upstairs conference room is past the foyer, at the opposite end of the building, at the end of the long hallway.

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the 'Contact Information' area of the meeting/event notice. Note that two weeks is usually required to arrange services.
