

FAASTeam presents:

# Baton Rouge Metropolitan Airport RSAT

The purpose of this RSAT meeting is to unite those individuals and organizations that are actively involved in air traffic operations and movement of aircraft, vehicles and equipment on the Airport Operations Area (AOA). We plan to discuss possible factors contributing to surface events at BTR and to assess the quality of current and planned mitigations. We look for participation from all major airport interests including tenants, fixed base operators, airport operations and maintenance personnel. Participants are asked to help develop recommendations and solutions to enhance surface safety. Those recommendations serve as the foundation for a site-specific Runway Safety Action Plan. You are cordially invited to join us.

**Directions:** The conference room is in the main terminal, 1st floor across from PJ's coffee. The room is not numbered.

#### **A message from the National FAASTeam Manager**
