

NEW and MSY Pilot and Air Traffic Controller Forum

Due to limited space pre-registration is required

The Pilot/Controller Forum is a unique opportunity for pilots to meet some of the Air Traffic Controllers they hear on the radio, learn more about NEW and MSY ATC procedures and gain valuable insight into how the Tower and Approach operate. This face to face event will help strengthen communication, build trust, and foster collaboration between pilots and controllers - making the skies safer and more connected for everyone.

Attendees will learn about Air Traffic Control Procedures for NEW Tower and MSY Class Bravo Airspace. Find out what ATC expects from you as a pilot, learn how to get what you want or need from ATC and why proper phraseology matters.

Pilot Deviations and the WINGS Program
