

## Drone Delivers are Here in NOLA

This seminar serves as a meet and greet with the personnel operating Wing, a UAS package delivery service. New Orleans airspace users will have the opportunity to check-out the drone, ask questions and gain some insight as to the drone delivery service in the great New Orleans area. As always, questions about airspace and UAS operations will be addressed as well as how UAS deliveries will impact airspace users.

Once in the terminal building proceed upstairs to the second floor conference room.
