

Advanced Weather For Pilots

Class will meet 2 consecutive Saturdays. This weather seminar covers subjects not normally taught to pilots. Weather factors specific to North Texas will be covered as well as new weather terminology not included in aviation text books. Subjects will include weather factors, weather hazards to aviation, printed reports & forecasts, graphic reports & forecasts, weather sources, and getting good briefings for convective weather.

Directions: Notice: There is a fee for this seminar. To Register, Contact Cynthia at cynthia@atrcsim.com for registration information.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
