

Just Because It's Legal, Doesn't Mean It's Smart!

You can't legislate good judgment. There are times when something may be legal, but definitely not smart. Aeronautical decision making and risk management are important parts of every flight and critical to the safety of that flight. In this seminar, case studies and scenarios will be presented to the audience for an interactive discussion on how aeronautical decision making applies to the situation.

Directions: NEW LOCATION for SGR Safety Seminar is Sugar Land Regional Airport, ANSON AVIATION. Turn off Hwy 6 S. onto Terminal Ln, turn first left on Jim Davidson Rd. and drive to first parking area on the right in the General Aviation Area. CHECK SGR NOTAMS!!!

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
