

FAR 43 Owner Maintenance - a Hands-On Experience!

Learn the skills to perform FAR 43 maintenance. Topics include, safety wire application, oil changes, wheel bearings, tires, servicing brakes, servicing nose struts and general inspections of airframe and components! Presenter Ron Elliott from Elliott's aircraft will be on hand to show you the skills it takes to perform these actions. Also, Shane Benedetto from BTR FSDO will be on hand to teach as well. We will be recruiting additional A&P's as the class size grows. This is an all day event.

Directions: From I-49 take Hwy165. Look for airport sign in the road construction area on the right, this will take you under Hwy 165 and around Lake Buhlow to the airport.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
