

FAASTeam presents:

MODAERO - Just Because It is Legal Does Not Mean It is Smart!

You can't legislate good judgement. There are times where something may be legal, but definitely not smart. Aeronautical decision making and risk management are important parts of every flight and critical to the safety of that flight. This seminar will be part of the MODAERO NextGen Aviation festival. Although the seminar is free, admission to the event is required to get access to the fairgrounds. For more information on admission and the festival, visit:

<http://www.modaero.net/>

Directions: For the most up to date information, visit: <http://www.modaero.net/>

FLYING IN:

Pilots flying in will be required to read the applicable NOTAM for the event. This is a fly-in event similar to Oshkosh and Sun N Fun that has specific procedures.

Pilots flying in will be directed to parking by ground personnel. Tie-downs for your aircraft are required.

Shuttle service will be provided from the aircraft parking areas to the main event at the Fairgrounds across the street.

DRIVING IN:

Ground guides will be directing traffic and will be handling the parking of vehicles.
