

IMC Club of EAA Chapter 302 Inaugural Meeting

Beginning with a warm Texas welcome (refreshments!) and introductions, a 20 Minute IMC introductory Video from Radek Wyrzykowski (founding father of IMC Club) will be shown followed by the monthly meeting scenario and discussion of "Inflight Emergencies While Flying IFR". Total of one hour is allotted, but we may remain for a bit longer if further discussion ensues.

Directions: Main conference room on first floor. This is the inaugural Meeting of Chapter 302's IMC club. The IMC Club's purpose is to promote instrument flying, proficiency, and safety. The intent is to create a community of pilots willing to share information, provide recognition, foster communications, promote safety, and build proficiency in instrument flying. The IMC Club offers monthly meetings on the 2nd Wednesday of each month in which pilots can network and share knowledge and experiences.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
