

## Advanced Flight Planning

Kevin Guy, Scheduler for Western Airways, will share his knowledge of flight planning that is used in the everyday operation of their Part 135 aircraft. See how the latest in risk management and flight planning is used to plan a flight. This presentation will cover a trip through preflight planning, standard operating procedures, and post flight procedures. For 38 years Western Airways has operated a variety of turbo-prop and jet aircraft throughout the world with no accidents or fatalities. From everyday trips to supporting hurricane and oil spill response efforts, these procedures have proven effective in operating safely in a variety of environments.

**Directions:** SGR is located on the west side of Highway 6 South, North of Highway 90A.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
