

Safety Culture for General Aviation Pilots

The goal of this program is to improve GA safety.

Technology is equalizing the GA cockpit but not the GA pilot. We will compare the contrast GA world to the Airline World.

David will discuss resource management, situational awareness, risk assessment and risk management.

A special thanks to SpringCreek BBQ for allowing use of their facility and the local FAASafetyTeam for arranging and coordinating the event. Dining-in is at the option and expense of the attendees.

Directions: Spring Creek BBQ is located on FM 2920 between Kuykendahl and Stubner Airlines. It is on the North Side of 2920 just to the west of Kuykendahl.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
