

Flying the Traffic Pattern at Non-Towered Airports

Mr. Woody Lesikar (IWS Director of Operations) and Mr. Hank Henry (IWS Chief Pilot) will discuss traffic patterns at Non-towered Airports including IWS. The seminar will include a discussion of the latest FAA Advisory Circular 90-66B, just recently issued. Mesrs. Lesikar and Henry will lead an interactive discussion of pros and cons related to the AC and pilot experiences.

The seminar will be of particular interest to IWS patrons, however, any pilot, regardless of their home base will benefit from the knowledge shared.

Directions: Second Floor of the Main Terminal Building at West Houston Airport.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
