

## Planning that Trip - What You Need and What is Required

Pat Brown, an FAA Goal Seal CFI, MEI, Glider, and Seaplane, AOPA Ambassador, is our guest speaker.

Fight planning requires that we process 'all available information' and we make good decisions when weather conditions are less than ideal and can be challenging. AOPA's "Weather Challenge" is a fun fast-paced look at weather systems, conditions they bring, and how those systems can affect the choices we make in planning a flight.

If you use an electronic device (IPad) you are encouraged to bring it with you for this program.

**Directions:** Anson Aviation is located 200 yards south of the Main Terminal Building at Sugar Land Regional Airport.
