

FAASTeam presents:

Preflight Planning and Actions

Using 91.103 as a guide, we will discuss the actions required for flight planning to be legal and safe in given situations. Including an overview of where to locate information on weather, airport information, airspace, airplane performance and more!

This seminar will give a better understanding on the basic knowledge you have gained with your pilot experience. Helping you become a better and safer pilot. A legal and safe pilot, is the best pilot.

Directions: This course will be available both in-person and online! Once you register on the link below, you will receive Zoom information in your conformation email.

Please register for this course on our website at <https://www.unitedflight.com/courses/>

If you attend in person, we are located at United Flight Systems on the David Wayne Hooks Airport (DWH). Please come straight back when you walk through our front door. The classroom is about halfway down on the left side of our main hallway.

Prior to attending this safety seminar please review and adhere to current CDC, State, and Local health guidelines.
