

Getting Around on the Ground

Being a pilot isn't just about flying! This course will cover how to understand signs, communications with ATC and other pilots, incursions, hotspots, how to manage crosswinds, and more. This course will be very helpful to every pilot because being safe on the ground helps making safe decisions in the air as well.

Directions: Please go straight back when you walk through our front door. The classroom is about halfway down on the left side of our main hallway.
Prior to attending this safety seminar please review and adhere to current CDC, State, and Local health guidelines.
